

# XTREM HUNTER

REVEALING  
THE DEEPEST  
FINDS

- ACCURATE TARGET AT DEPTH OF UP TO 5 METERS (17 FEET)
- FMF® FAST MULTI FREQUENCY
- WIRELESS CONVENIENCE  
SEAMLESS COMPATIBILITY WITH THE DEUS II  
WIRELESS ECOSYSTEM
- EASY TO USE
- EASY TO TRANSPORT
- WATERPROOF CONSTRUCTION
- BUILT TO LAST

TRUSTED XP  
FAST WIRELESS  
TECHNOLOGY

ONLY 2.9 kg

Experience the world's lightest high-end metal detector. Detect for longer periods of time with ease, without sacrificing performance.

ALL TERRAIN ALL CONDITIONS

Its versatility and adaptability make it an indispensable tool, whether you're eXPLoring the depths of a forest or combing the shores of a beach

3 PROGRAMS

1 factory programs  
+ 2 customizable programs

Fast Multi Frequency

- First deep-seeking multifrequency detector
- Minimal ground noise
- Moderate-sized ferrous discrimination

FREE XP UPDATES

5 YEAR  
WARRANTY

# XTREM HUNTER

The XTREM HUNTER is the ultimate accessory for the DEUS II. New standards in the world of deep seeking metal detectors, it delivers unmatched performance and stability through its unique ability to limit ground effects. The XTREM HUNTER will be your reliable and robust companion for uncovering targets such as, large relics and various underground objects. The XTREM HUNTER is ideal for archaeologists, building professionals and passionate.

Meters Feet

# REMOTE CONTROL

- Shockproof
- Detachable
- Waterproof up to 20m/66ft (IP68)

# COMPATIBLE WITH DEUS II

When you pair up the DEUS II, it automatically switches to a dedicated interface with settings optimised for wide and deep target detection.

Signal Duration. It can help you estimate the target's size.

Play / Pause indicator. The main interface continuously displays the signal of the last 4 seconds. You can freeze it by pressing the Play / Pause key

Access to OPTION

Play / Pause

Access to G.B  
Long press: shortcut  
FREQ SCAN (Noise cancel)

Change Program

Retune the Threshold  
Long press: Ground Balance

Access to MENU - Long press:  
Marks your location on the  
Go Terrain smartphone app.

Signal strength.  
It can help you estimate  
the target's depth.

SHOCKPROOF  
REMOTE CONTROL

# UNPARALLELED PERFORMANCE

Conventional detectors are able to detect small targets as well as large metal masses at significant depths. However, they are affected by small targets near the surface or by ground effects and it is difficult to distinguish between a small surface target and a larger target at depth.

The XTREM HUNTER is highly insensitive to small surface targets. It has the capability to penetrate the top layers of the ground to easily detect through them.

## FEATURES/SETTINGS

Sensitivity	99 levels
Discrimination	IAR on 5 levels
Threshold	20 levels
Reactivity	3 levels
Auto Tune	3 levels
Frequency Shift	14 bands Manu/Auto
Audio Response	4 levels
Ground balance	Grab or Manual
Equalizer	4 configurable bands
Programs	1 factory + 2 user programs
Display	Dynamic bar graphic

## GENERAL FEATURES

Technology	Simultaneous Fast Multiple Frequency (FMF®)
Detecting Type	Non-Motion with adjustable Autotune
Wireless Headphones optional	WS6 (rainproof) - WSAll (rainproof) - WSAll XL (IP 68-1m)
Case	included - rain and shock proof
Battery type	Li-ion 18650 x1 - 11 Watts/hour - 45g
Battery life	> 10 hours
Charging time	~ 4 hours
Operating T°	0 to + 40°C
Max ambient T° during charging	0 to + 40°C
Charging Cable	USB type C
Length assembled	1.20 m (3,94 ft)
Weight (Xtrem Hunter + remote)	2.9 kg (6.4 lb)
Weight (Xtrem Hunter in its XP case)	5.8 kg (12,8 lb)
Weight (XP Case)	2.7 kg (6 lb)
XP case size	725 x 480 x 170 mm (28' x 18,9'x 6,7')
XP Backpack 280	Optional
Warranty	Five years parts and labour. Batteries and connectors, two-year warranty
Patents	US 7940049 B2 - EP 1990658 B1 and patents pending

## LONGTIME® LONGIVITY LABEL

Concerned about our planet and fighting against planned obsolescence, XP Metal Detectors have obtained the Long Time label. The first European label identifying and promoting products that are designed to last. XP Metal Detectors guarantee their metal detectors for 5 years and offer repairs and spare parts for a minimum of 10 years. DEUSII®, DEUS®, FMF® ORX®, WS6 Master have all obtained the label certification. Visit [www.xpmetaldetectors.com/en/page/who-we-are.php](http://www.xpmetaldetectors.com/en/page/who-we-are.php) to learn more.

Visit [www.xpmetaldetectors.com](http://www.xpmetaldetectors.com) for more information, download the user guide for tips and technical information. Many more accessories are available. Visit an XP dealer or the XP website to see the full range and understand all the pack you can order. DEUSII®, DEUS®, FMF® ORX®, are trademarks of XP Metal Detectors. The visuals and graphics provided are solely intended for demonstrative purposes, and the actual product may differ from the depicted configurations.
